## CART Services

Communication Access Real-time Translation (CART) is provided by a stenographer and is the most widely used technology for providing instant translation of the spoken word into English text. The text can be viewed on a computer monitor, television screen, LED or projection screen, iPad, Tablet, iPhone, Kindle or Blackberry. CART provides a fully immersive experience which allows a colleague or customer that is hard of hearing or deaf to fully comprehend and participate in the meeting, webinar or training event.

The CART Provider can provide real time streaming text of the training or meeting remotely to anywhere in the world. The streaming text can be embedded into a webinar or website. A unique url link will be provided prior to the event so other team members or customers can join in to view the real-time streaming text.

## Benefits of CART

- **Flexible:** CART can be used in a variety of settings, whether one on one or in a small or large group.
- **Versatile:** A team member or your customer has the ability to change the font size and background colors of the text to suit their needs.
- **Accessible:** Easy to set up and use. No messy cables required.
- **Full Participation:** All team members, or your customer, has the opportunity to be involved in making decisions due to word-for-word translation with all environmental sounds.
- **Transcript:** Complimentary verbatim transcript available within hours of the event.

## HOW IS CART PROVIDED?

CART services can easily be accessed. You need only an internet connection and a source for audio. The text can be viewed on a television or projection screen, computer monitor, iPad, Tablet, iPhone, Blackberry or Kindle.

*The National Health Institute (NIH) 2012 statistics in the USA estimate 36 million or 17% of Adults have a hearing loss. 20/20 Captioning & Reporting offers you a solution . . . Call Today for a **FREE** demo.*

## Why CART is Important

Imagine . . . you or a team member are deaf or have a hearing loss and are unable to accurately follow the conversation during a very important meeting or training. With CART displayed on your computer, iPad, Tablet, or other hand-held device, you are able to read the verbatim words being spoken. CART can benefit the deaf or hard-of-hearing employee or customer; plus, CART allows all team members the opportunity to read the real-time text and follow along during an important meeting, presentation or training. Schedule CART today and experience the difference you can make for your staff or customer that could benefit from this amazing service.
